NEW MUSIC · DEMO

In My Heart

Our new original Country EDM song, a road trip love song where every "one night in" city leads back home to Austin. The hook: "No matter where I go... I can't let go of you."

The instrumental is completely original and still a demo while we refine it, and it uses AI demo vocals while we source a singer. In the final version a live guitar lead replaces the synth on the drop, and the acoustic breakdown is made for Kristian's guitar, so it's built for the MIXMODE show.
